

GREEN RESOURCES AS

ENVIRONMENTAL POLICY

Green Resources AS is Africa's leading forestation / reforestation company doing carbon offset, manufacture of wood products, and generation of bio energy. It is conducting activities in Tanzania, Uganda, Mozambique, also starting in south Sudan and Zambia.

It is committed to follow the best Environmental practices to the implementation of this policy and the company's Environmental Management Programs in relations to all activities conducted in its subsidiary companies.

To achieve this, Green Resources will;

- Conduct the company's activities in an environmentally responsible manner by complying with all relevant laws, regulations and standards.
- Strive for continual improvement by reviewing environmental objectives and targets.
- Minimize impacts to the land, air, and water; and conservation of biodiversity in plantation operations through systematic environmental programs.
- Ensure site personnel and contractors understand the policy and their environmental responsibilities. Contractors will be encouraged to operate to this standard.
- Monitor the use of chemicals and reduce their impact on the environment.
- Provide the employees with the training and required technology to perform their tasks safely and fulfill their environmental responsibilities where it's cost effective.
- Prevent pollution where possible and develop response plan for potential emergence Situations.
- Implement and maintain good practices of waste management and promote principles of reduce, reuse and recycle where possible to ensure the effective use of available resources.
- Committed to sustainable forest management practices including those of the Forest Stewardship Council and obtain and maintain certificates of its plantation operations.
- Communicate this Policy to the public, government agencies, and other interested parties by making copies of these readily available including company's website, reports and notice boards.
- Encourage employees to work to improve the environment, bearing in mind the impact of their business activities and their civic responsibilities.
