SAO HILL INDUSTRIES CCA PRESSURE TREATED TIMBER

The best quality treated timber available in Tanzania.

WHO IS SAO HILL INDUSTRIES?

Sao Hill Industries is situated in the Southern Highlands of Tanzania. SHI is the largest and most modern sawmill in East Africa. The sawmill produces high quality Sawn Timber, Pallets, Transmission poles as well as other timber products.

The Sao Hill Sawmill has an annual capacity of producing up to

84,000m³

of top quality pressure treated sawn timber.

WHAT IS PINE SAWN TIMBER?

Pine sawn timber comes from the coniferous Pine Tree which is a renewable resource, grown on a sustainable basis in Tanzania. It is widely utilized in the construction and furniture industries as it is the most cost effective, versatile and strong building material. Pine timber is not only attractive to look at but it is also easy to work with and hence it is used extensively for both indoor and outdoor applications throughout Tanzania.

WHY CHOOSE TREATED TIMBER FROM SAO HILL INDUSTRIES?

Sao Hill Industries harvests, mills, kiln dries and pressure treats pine sawn timber at its industrial site based at Sao Hill in Mafinga, Iringa.

After pressure treating with CCA, the timber is dispatched to sites throughout Tanzania. SHI Timber has the following characteristics:

-  It has an extended **timber life** span
-  It is **resistant** to insect attack (termites)
-  It is **resistant** to decay, and being attacked by wood rot, or fungus.
-  It is cut **straight** and dried **flat**
-  It is **kiln dried** before treating for maximum chemical absorption
-  It has been properly treated with 6kgs of **CCA chemical** per m³
-  It is **strong, durable** and will **last longer**
-  It is the **BEST QUALITY TIMBER** available in Tanzania
